

4.3B - Graphing Piecewise functions

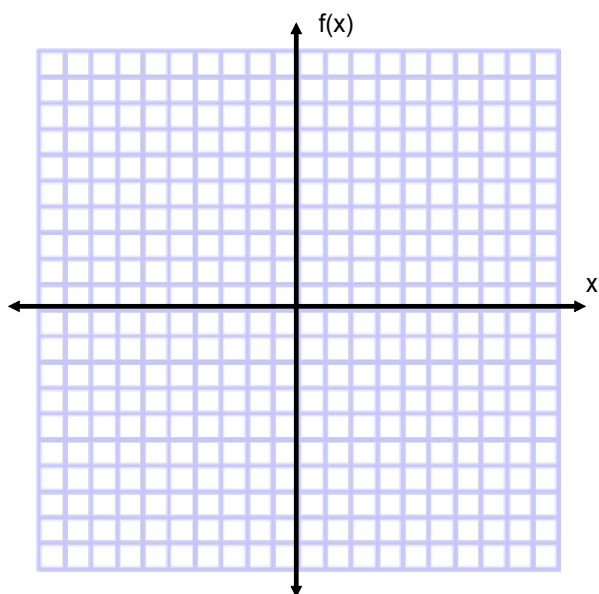

4.3 B – Graphing Piecewise Functions

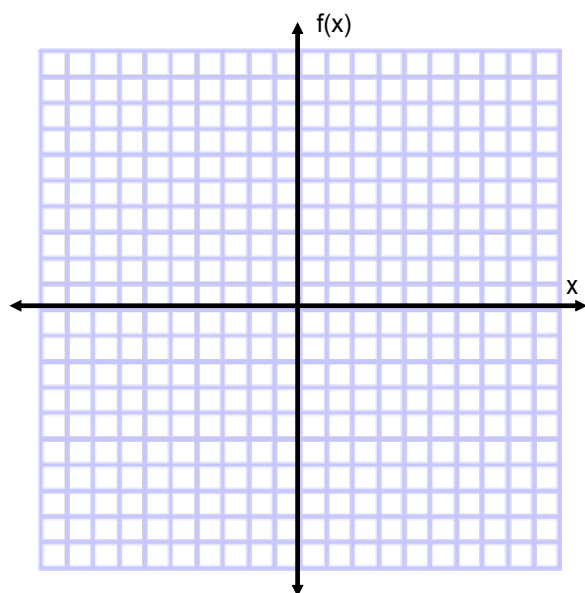

Steps to graphing Piecewise functions

- 1) Graph the 1st function.
Make open or closed circles
Erase the part if the graph not included in the given domain.
- 2) Repeat step 1 for all other functions.

4.3B - Graphing Piecewise functions

$$f(x) = \begin{cases} 3x - 4 & \text{if } x > 2 \\ -x - 3 & \text{if } x \geq -2 \end{cases}$$

$$f(x) = \begin{cases} \frac{3}{2}x - 4 & \text{if } x \geq 4 \\ -x & \text{if } x < -2 \end{cases}$$
